

Oregon Estuaries

Alsea Bay

Alsea Bay in Lincoln County, Oregon. Alsea Bay forms where the Alsea River enters the Pacific Ocean. This bay is one of many on the Oregon coast that records the history of a great earthquake in the year 1700 and the tsunami that came with it. The community of Waldport is in the upper center of the image. This enhanced 3D image is a composite of lidar-derived shaded relief and orthorectified aerial photography.
