SUGGESTIONS
OBSTACLES (LEVEL 1)
SOLUTIONS
OBSTACLES (LEVEL 2)
EMERGENCY PREPAREDNESS
Oregon Landslide Warning System and Local Emergency Notifications
PREDICTABILITY:
Increase confidence and accuracy
IMPROVEMENT:
Improve and build existing systems
RESPONSIBILITY:
Activation of warning system is complex and agencies are conservative
INSUFFICIENT:
No other warning system available
LIMITED:
Limited data and complexity
PARTICIPATION:
Increase education and awareness
INSUFFICIENT:
Connectivity limitations (cell, power)
CONFIDENCE:
Increase confidence in projections and accuracy
CONSISTENCY:
Strategies for communication across agencies
Strategies for type of message, language, map links, and coding
CAPABILITY:
Increase meteorological stations and capabilities
NOAA alarms and USACE dam data
CONNECTION:
Connect alerts among agencies
COLLABORATION:
Use local fire districts; utility providers
OUTREACH:
Use alternative approaches; consider accessibility
COMMUNICATION:
Use direct communication (vs. online or cell)
Funding
Trust
