Notice

The Oregon Department of Geology and Mineral Industries is publishing this paper because the information furthers the mission of the Department. To facilitate timely distribution of the information, this report has not been edited to the usual standards of the Oregon Department of Geology and Mineral Industries.

The first edition of this index was published as Oregon Department of Geology and Mineral Industries Open-File Report O-95-04.

Index to Geologic Maps of Oregon

by U.S. Geological Survey Topographic Quadrangle Name,

1883-1997

Compiled by Peter L. Stark
Map and Aerial Photography (MAP) Library
University of Oregon Library, Eugene, Oregon

Revised by Ronald P. Geitgey and Klaus K.E. Neuendorf,
Oregon Department of Geology and Mineral Industries

This index covers geologic maps of Oregon that were published in several U.S. Geological Survey series. Only maps from the "L" series (*Land Use and Land Cover Maps*) have been excluded. The index also includes maps that have been published by the Oregon Department of Geology and Mineral Industries and the Oregon Water Resources Department. It lists only those geological maps with a scale of 1:125,000 or larger. Quadrangles whose names have been changed are listed under each of their names.

Each entry includes the following elements: The quadrangle name; a reference to the publication series that contains a geologic map of part or all of the quadrangle; the date of publication; the scale of the geologic map expressed in thousands; and a description of the coverage of the quadrangle provided by the geologic map. Where appropriate, the subject coverage is noted if the map is not a standard geologic map.

Abbreviations used for publications

U.S. GEOLOGICAL SURVEY

B	Bulletin, (1883-)
