LONG AND SLOW, TIME TO GO!
IF YOU FEEL STRONG SHAKING, A TSUNAMI MAY BE COMING...

- **Drop, Cover, and Hold On** until the earthquake is over. Protect yourself.
- **Run Inland to High Ground.** LEAVE IMMEDIATELY. DO NOT WAIT for an official warning. GO ON FOOT.
- **Follow Evacuation Route Signs and Arrows** to your nearest safety destination out of the tsunami zone.
- **Do not slow down.** Maintain your speed until you leave the tsunami zone. Safety may be identified by **BLUE LINES** painted across the road or by an Assembly Area* sign. Once safe, go to the nearest Assembly Area* or neighborhood gathering site.
- **Do not return to the beach.** Large waves may continue to come onshore for up to 12 hours. **WAIT** for official NOAA tsunami cancellation and a **cautionary re-entry notice** by local emergency officials before returning to low lying areas.

A **LOCAL TSUNAMI** can reach the shore in 10 to 20 minutes after the earthquake — before there is time for an official warning from the national warning system.

Ground shaking from the earthquake may be the only warning you receive. Quickly move inland to high ground.

A **DISTANT TSUNAMI** will take 4 hours or more to reach the shore. You will feel no earthquake, and the tsunami will be smaller than that from a local earthquake. There is time for an official warning, evacuation, and assistance from local emergency officials.

Funded by the National Oceanic and Atmospheric Administration under NTHMP contract award NA090H5045070064 through the Oregon Department of Geology and Mineral Industries. Published by the Oregon Department of Geology and Mineral Industries in consultation with local emergency management officials.
**TSUNAMI EVACUATION MAP**  
**CUTLER CITY**

If you feel an earthquake:
- Drop, cover and hold
- Move immediately inland to higher ground
- Do not wait for an official warning

Si usted siente el temblor:
- Tírese al suelo, cúbrase, y espere
- Diríjase de inmediato a un lugar más alto que el nivel del mar
- No espere por un aviso oficial

---

**NOTICE:** This tsunami evacuation zone map was developed by DOGAMI for the purpose of guiding the public out of the tsunami inundation zone in the event of a tsunami evacuation. This map adopts recommendations from the Oregon Tsunami Advisory Council. The evacuation routes were developed by DOGAMI, in consultation with local emergency officials and OEM.

---

**Evacuation Route**
- Local Cascade Earthquake and Tsunami: Evacuation zone for a local tsunami from an earthquake at the Oregon coast.
- Distant Tsunami: Evacuation zone for a distant tsunami from an earthquake far away from the Oregon coast.
- Outside Hazard Area: Evacuate to this area for all tsunami warnings or if you feel an earthquake.

**Sirens**
- Sirens are used to alert the public to a tsunami threat.

**Safety Destinations**
- Safety destinations are areas where people can take shelter during a tsunami.

**Map Symbols**
- Evacuation route
- Safety destinations
- Elevation, in feet
- Vulnerable bridge
- Assembly area
