

LONG AND SLOW, TIME TO GO!

IF YOU FEEL STRONG SHAKING,
A TSUNAMI MAY BE COMING...

- **Drop, Cover, and Hold On** until the earthquake is over. Protect yourself.
- **Run Inland to High Ground.** LEAVE IMMEDIATELY. DO NOT WAIT for an official warning. **GO ON FOOT.**
- **Follow Evacuation Route Signs and Arrows** to your nearest safety destination out of the tsunami zone.
- **Do not slow down.** Maintain your speed until you leave the tsunami zone. Safety may be identified by **BLUE LINES** painted across the road or by an Assembly Area* sign. Once safe, go to the nearest Assembly Area* or neighborhood gathering site.
- **Do not return to the beach.** Large waves may continue to come onshore for up to 12 hours. **WAIT** for official NOAA tsunami cancellation and a **cautionary re-entry notice** by local emergency officials before returning to low lying areas.
